

Rahul Banik

Front-End Developer

As a Front-End Developer with 2.7 years of experience. I have built fast and scalable web applications using React.js, Next.js, JavaScript, TypeScript, and Tailwind CSS. I have contributed to various projects, building fast and scalable web applications tailored to user needs. I have worked extensively with RESTful APIs, GraphQL, and Redux Toolkit to manage state efficiently in complex applications. I have interest to explore cloud computing and Docker to enhance development workflows, always serving to deliver high-quality solutions.

EDUCATION

Bachelor of Technology

St. Thomas College of Engineering and Technology

07/2019 - 07/2022

Kolkata

Courses

- Computer science and engineering

WORK EXPERIENCE

Software Developer

Kaushalam Digital Pvt. Ltd.

11/2023

Ahmedabad, Gujarat

• I specialize in React.js, Next.js, JavaScript, and TypeScript, creating fast, intuitive applications that enhance user experience and scale efficiently to meet client needs.

Achievements/Tasks

- Developed a secure, password-protected feature with encryption and restricted access, that provides safe website access management and smooth lock and unlock functionality.
- I have implemented signup and sign-in features for multiple live and complex websites. To implement this feature I have used authentication, validation, and access control, enhancing security.

Software Developer

RedoQ Software Services Pvt LTD

02/2023 - 10/2023

Kolkata

I have strong experience in React.js to develop dynamic, user-friendly interfaces that enhance user experience while ensuring projects are delivered on time and client needs are met.

Achievements/Tasks

- Built an optimized and scalable Content Management System (CMS) and admin dashboard to help businesses improve usability, boost performance, and streamline content management workflows efficiently.

Software Developer

Global Ids

07/2022 - 01/2023

Kolkata

• Skilled in React.js and Vue.js, developing intuitive, high-performance features that enhance user experience and meet client requirements with timely delivery.

Achievements/Tasks

- Developed responsive and high-performance features that enhance user experience, optimize data loading speed, and improve application responsiveness.

SKILLS

Next.js

TypeScript

React.js

Redux Thunk

JavaScript

HTML

TailwindCss

CSS

Java

PROJECTS

- AdminLock (05/2024 - 05/2024)
 - Developed a password-protected screen that renders on when the initial website load at the first time, It is dynamically activated based on admin settings to strengthen security and access control.
- SignIn and SignOut (07/2024 - 07/2024)
 - Created and implemented secure login and signup features that include strong authentication, validation, and access control, enhancing security, user experience, and overall system reliability.
- NextGen Upgrade (09/2024 - 11/2024)
 - Refactored and optimized project dependencies by migrating from Next.js 12 to Next.js 14. This transition ensured compatibility, improved performance, and enhanced application stability by leveraging the latest features.
- Contribute to the development and enhancement of a Content Management System (CMS) (04/2023 - Present)
 - Contributed to the development of a CMS product integrated with an HRM system, leveraging React.js and Redux Thunk to optimize state management and enhance user experience.

SKILL HIGHLIGHTS

- Comfortable switching technologies.
- Strong decision-maker
- Creative design
- Try to explore new things
